

Quick Points:

- Join [CashFX](#) for as little as \$300. Click Here: [CashFX](#)
- There are no monthly or maintenance membership fees.
- Initiation fees are deducted from the program cost. The balance is your trading pool credit.
- Membership choices are Academy plus trading or Academy only. Most members are Academy plus trading, otherwise known as “Elemental”. Use of the Academy is completely optional. Most members start with this CashFX choice:

- Membership programs must be paid by a Bitcoin cryptocurrency transaction. A Bitcoin wallet is required. Consider signing up with [Crypto.com](#) for a free wallet. You can convert dollars, pounds or Euros to Bitcoin using their system. A free Visa debit card is provided.
- Trading pool credits are traded automatically by CashFX. Earnings are credited to members daily, 5 business days per week, and are typically many times higher than other investments like term deposits.
- Referrals of new paying members will generate generous affiliate income for members.

*Trading on the Global Forex Market is risky. Please only trade money you can afford to lose. No Trade results can be guaranteed in any type of real trading activity.

Quick Start Steps

1. Sign up for a free Bitcoin wallet at [Crypto.com](https://crypto.com)
 - a. Verify your fiat, (dollar), wallet using a scan of a utility bill
 - b. Send money from your bank account or Visa debit card to your fiat wallet, \$300+. There are transaction fees to cover so you should deposit an additional \$10 to \$15 to cover applicable transaction fees. You will send the required Bitcoin amount to CashFX, plus the transaction fee. The surplus amount will remain in your Crypto.com wallet for you to spend later.
 - c. Purchase Bitcoin using the Crypto wallet. If you are going to join CashFX at the \$300 level, buy \$315 worth of Bitcoin. Always buy \$15 more in Bitcoin than what you need in order to ensure that you have enough to send, and to cover the transaction fee.
2. Sign up for your account at [CashFX](https://cashfx.com)
 - a. Purchase your Elemental pack at the \$300 level, or more if you want. Higher levels earn higher trading rewards.
 - b. The system will show you the Bitcoin value required and the CashFX Bitcoin wallet address. It will be \$300 divided by the value of 1 Bitcoin. For example, today the amount would be $\$300 / \23300 or 0.12876 Bitcoin. (Dec. 24, 2020.)
3. Go back to the Crypto.com app
 - a. Go to your crypto wallet, Bitcoin section.
 - b. Click transfer
 - i. You will transfer to an external wallet
 - c. Enter the Bitcoin value from step 2b, plus the indicated amount for the transaction cost. For example, if the required amount is 0.012876 Bitcoin, and the fee is 0.0004, you need to set up a sending transaction of 0.013276 Bitcoin
 - d. Enter the CashFX Bitcoin wallet address from step 2b above
 - e. Send the transaction
 - i. You may need to enter your Crypto.com confirmation code
 - ii. You may need to go to your email and follow validation steps there
4. Go back to your CashFX system

- a. Confirmation of your membership will be emailed to you
 - b. After you get the email, check the system for your new access rights
 - c. Your trading pool will start to generate daily funds after 3 business days
5. Congratulations!

[If you have any trouble with the above, please don't hesitate to ask for help using this link.](#)

CashFX is a foreign exchange, (“Forex”), system.

It provides members:

- Forex education, (which is completely optional)
- Automated Forex trading services, which earns money for you
- Automatic affiliate program
- Recruiting bonuses
- Access to the corporate head office, (subject to Covid restrictions)
- Membership rankings

CashFX Initiation Fee

All paid membership accounts are subject to an initiation fee. The amount is used to cover referral fees to existing members. The balance of CashFX fees are credited to the member's trading pool. There are no trading fees.

CashFX Withdrawal Fee

All earnings can be withdrawn, \$100 minimum, and are subject to a withdrawal fee. The fee is distributed to existing members.

CashFX Return on Investment, (ROI)

CashFX is designed to return 60%, net of fees to members. The length of time your trading pool takes to earn this amount is variable and cannot be guaranteed.

CashFX Referral System

CashFX offers a referral system that rewards members who participate. Participation is optional. This system allows CashFX to grow without the need to pay for advertising.

What is Forex?

Forex is the global foreign exchange trading market. It is the biggest investment platform in the world, trading well in excess of \$5 trillion dollars a business day. Forex trading occurs 24 hours a day, 5 days per week.

Any time you convert money, (for example US Dollars to Euros), your transaction invokes a buy/sell trade on the Forex market.

Forex has been difficult for regular people to understand, enter, and prosper. CashFX seeks to change that. An in-depth education academy is provided to members wishing to study Forex. Note that the academy is completely optional; many members do not feel the need to use it.

Automated Forex Trading Services

CashFX members have access to automated Forex trading. Your trade amount participates in investment transactions. These are executed by a combination of CashFX proprietary computer applications and expert traders. Gains are credited back to your trade balance daily. CashFX executes thousands of trades, balancing gains against risk, often in seconds.”

Automatic affiliate program

Members are automatically able to earn revenue when they show CashFX to other people, and those people join the program. For some members, revenue earned this way is more than their trading revenue.

Recruiting bonuses

Members who refer a substantial number of new members receive various bonus amounts as cash or merchandise. Amounts are paid as Bitcoin.

Consider [Crypto.com](https://crypto.com) for a free Bitcoin wallet. You can fund your wallet from your bank account or from a VISA or MasterCard debit card.

Bitcoin

All financial transactions to CashFX or out to members are conducted in Bitcoin. Bitcoin is the digital currency established in 2009. Prospective members must arrange money conversion to Bitcoin themselves. See [Crypto.com](https://crypto.com) for details.

CashFX is the most exciting Forex system that you will find.
